COURSEWORK / SKILLS

- Data Structures & Algorithms
- OOPS Concept
- Web Development
- Operating System

PROJECTS

SmartCity ⧉ | React.js
- SmartCity Web Application (Frontend) – Built a responsive React.js interface that enables users to report city issues such as garbage, road damage, and electricity faults by capturing or uploading photos and adding location details. Designed an intuitive, mobile-friendly UI/UX, prepared for seamless backend integration..
- Live site here

GitHub User Finder ⧉ | JavaScript, HTML, CSS, GitHub API
- Developed a responsive web application that retrieves and displays real-time GitHub user data through API integration. Implemented smooth UI transitions, modern responsive styling, and dynamic DOM manipulation to show user profile details such as avatar, name, company, and followers. Enhanced user experience with fast data fetching and polished interface design. .

EXTRACURRICULAR

Inforia2k24 ⧉   **2024**
Event coordinator for our college   *bhopal*
- It was a significant accomplishment for me, and I'm proud of what we achieved as a team. Throughout the process, I learned valuable lessons in leadership, teamwork, and effective communication. These skills have not only helped me in organizing the event but also in my personal and professional development. I'm grateful for the opportunity to take on this role and for the support of everyone involved. Looking ahead, I'm eager to continue applying these skills in future endeavors and to take on new challenges. Overall, this experience has been incredibly rewarding, and I'm excited to see where it leads me next!"
- Participation Certificate. ⧉
